The Ocean Safety Open Weekend in Southampton

Ocean Safety in association with Yachting Monthly is holding a liferaft servicing open weekend at Southampton. Come along and see what your essential equipment looks like in a warm, dry and safe environment!

Bring your liferafts, lifejackets, family and crew along. Our Ocean Safety trained service engineers will be able to examine your liferafts and lifejackets and explain in detail your equipment, which can then be left with us for service.

Experts will be on hand from Jonbuoy, ICOM, Seafire, Kannad, Para anchor & Kru throughout the weekend to discuss and advise on all types of safety equipment including liferafts, lifejackets, EPIRBs, MOB aids, parachute anchors and flares. There will also be a live flare and R10 AIS PLB demonstration.

16th - 17th February 2013

OCEAN SAFETY®

in association with

YACHTING MONTHLY

16th - 17th February 2013
